## DELIVERABLE INFORMATION

This publication has been provided by members of the AUTOFLEX consortium and is intended as input to the development of autonomous and flexible inland waterway vessels and respective business models. The content of this publication has been reviewed and accepted by the members of the AUTOFLEX participants. However, not necessarily every aspect of it represents the view of each individual member of the AUTOFLEX consortium.

While the information contained in the document is believed to be accurate, AUTOFLEX participants make no warranty of any kind with regard to this material including, but not limited to the implied warranties of merchantability and fitness for a particular purpose. None of the AUTOFLEX participants, their officers, employees, or agents shall be responsible for, liable in negligence, or otherwise howsoever in respect of any inaccuracy or omission herein. Without derogating from the generality of the foregoing neither of AUTOFLEX participants, their officers, employees or agents shall be liable for any direct, indirect, or consequential loss or damage caused by or arising from any information advice or inaccuracy or omission herein.

The material in this publication can be reproduced provided that a proper reference is made to the title of this publication and the AUTOFLEX project.

18.06.2024	Version 0.2	Reviewed by MR
30.06.2024	Version 1.0	To be submitted to the European Commission

## EXECUTIVE SUMMARY

The purpose of this deliverable is to establish the knowledge and IPR management procedures for AUTOFLEX, which is based on Horizon Europe IP Management guidelines and the project Consortium Agreement, as well as (Model) Grant Agreement.

This deliverable revisits the background and foreground procedures listed in the Consortium Agreement, including a mandatory Results Ownership List (ROL). Related to the ROL a suggested Innovation Disclosure Form template is presented and the partners are urged to utilise it in case of any patenting processes.

Furthermore, this deliverable includes procedures on access rights and licensing, as well as confidentiality and data sharing. The obligations to disseminate and exploit are also covered and are both linked to IP Management guidelines from the European Commission.

The final part of the deliverable addresses dispute resolution mechanisms and costs reimbursement.

Overall, this deliverable should be frequently revisited and used as guideline for exploitation of results and is also connected to for example the Exploitation Roadmap deliverable.
